PROFESSIONAL EXPERIENCE

Manager, Specialized Onboarding — **Gusto**

Feb 2025 – Aug 2026

Payroll migrations & integrations · led a pod of 11 specialists

- Managed **11 specialists** and their books of business — coaching, performance development, capacity balancing, and on-time delivery of customers' first payrolls.
- Grew the pod's **CSAT +20%** and **NPS +3 points**, with productivity up month over month.
- Designed, built, secured, and operated — solo — an end-to-end performance analytics + AI platform** that became the team's daily source of truth (rankings, per-person stats, coaching, bonus, daily prioritization, live pipeline).
- Engineered a **one-command data pipeline** integrating Salesforce, Snowflake, Notion, Calendar, CSAT, and QC systems with 8 automated data-integrity checks — replacing a fragile 8-step manual process.
- Built **AI coaching assistants** (retrieval-grounded) and hardened the app after a security review (verified-identity auth, output encoding, server-side PII scoping).
- Audited a company performance metric, found it **overstated**, and delivered a per-order method that reconciled exactly to source — correcting numbers used in reviews.
