SUMMARY

Customer-experience and operations leader with 20 years leading teams — including teams of managers — across SaaS, e-commerce, and technology. Deep **contact-center, client-success, and workforce-management** expertise, with a **data-driven** approach to process improvement, quality, and retention. Uniquely, I also **build the systems my teams run on** — production dashboards, integrated data pipelines, and AI tooling — bridging frontline operations and technical execution. Consistent record of growing revenue, lifting CSAT and retention, and turning manual, fragmented operations into automated, data-driven ones.

CORE COMPETENCIES

Team & Multi-Layer Leadership (managing managers) · Contact Center Operations · Customer Success & Client Experience · Workforce & Capacity Management · Process Improvement & Lean · Data Analysis & Reporting · SLA / Quality / KPI Ownership · Revenue Growth & Retention · Change Management · Cross-Functional Partnership · Program & Project Management

TECHNICAL SKILLS

SQL & Salesforce (SOQL) · Snowflake · Python · JavaScript / Google Apps Script · API Integration · Data Pipelines & ETL · Dashboard & Metric Design · LLM / AI Application Development + Retrieval (RAG) · Application Security (authentication, PII scoping) · Automation & Scheduling · Notion · Google Workspace

PROFESSIONAL EXPERIENCE

Gusto — Manager, Specialized Onboarding (*payroll migrations & integrations*)

Feb 2025 – Aug 2026

Led a pod of **11 onboarding specialists** delivering live payroll migrations and integrations — owning their books of business, coaching, performance, and SLA/quality outcomes — and built the analytics and AI tooling the team ran on.

- Managed **11 ICs** and their full pipelines of active migration/integration orders: coaching and performance development, capacity balancing, and protecting on-time delivery of customers' first payrolls.
- Grew the pod's **CSAT +20%** and **NPS +3 points**, and increased the team's productivity and output **month over month**.
- Owned team facilitator-SLA attainment, QC error rate, and CSAT; partnered with Sales and RevOps on handoffs, escalations, and process.
- **Designed, built, secured, and operated — solo — an end-to-end performance analytics + AI platform** that became the team's daily source of truth (rankings, per-person stats, coaching, bonus, daily prioritization, live pipeline).
- Engineered a **one-command data pipeline** integrating Salesforce, Snowflake, Notion, Google Calendar, CSAT, and QC systems with **8 automated deploy-gating data-integrity checks** — replacing a fragile 8-step manual process.
- Built **AI coaching assistants** grounded in a curated knowledge base (retrieval-augmented) plus an AI daily digest.
- Hardened the application after a security review: verified-identity authentication, output encoding, **server-side PII scoping**, and an anonymized demo build.
- Audited the company's facilitator-SLA metric, found it **overstated** (double-counted status re-entries + time-zone errors), and delivered a per-order method that reconciled **exactly** to the source system — correcting numbers used in performance reviews.

BPO Consultant (Contract)

Nov 2023 – Feb 2025

- Delivered 15 client engagements implementing experience-management (XM) solutions and onboarding users; continued professional development in data analytics, project management, and CX strategy.

Spectrum Enterprise – Greenwood Village, CO

Senior Manager, Digital Operations · Apr 2023 – Nov 2023

- Built incident-management protocols uniting 5 organizations — **+75% response efficiency, +30% client satisfaction**.
- Drove a multi-team program to a **99% ticket-resolution rate** and **–30% registration support inquiries** via AI-driven automation.
- Improved employee satisfaction (ESAT) **+18%**.

adpay Inc. – Englewood, CO

Director, Client Experience & Operations Support · Oct 2018 – Feb 2023

- **Awarded Director of the Year** for fostering collaboration and department unity; **97%** individual-leader ESAT.
- **Tripled operational efficiency** by optimizing partner support and applying APIs and automation.
- Achieved record contract renewal/retention (**89%** renewal & extension, B2B); built advanced analytics for performance monitoring and data-driven decisions.

Ancestry.com – Orem, UT

Senior Manager, Member Services · Oct 2013 – Oct 2018

- Boosted annual revenue **+\$4M** and improved **CSAT/NPS +15%**; led a team to a **95%** ESAT rate.
- Built training programs that raised QA scores **+11%** and ESAT **+16%**.

ModusLink Global Solutions – Orem, UT

Senior Workforce Manager · Oct 2006 – Oct 2013

- Increased annual profitability **+\$100K** through efficiency and call-routing improvements; **–30%** caller abandon rate.
- Delivered financial forecasts and reporting that informed key business decisions; supported multimillion-dollar partner programs (Apple, GoPro, Navteq).

EDUCATION

Brigham Young University — Provo, UT — Business Administration (coursework toward BBA)

LANGUAGES

English (native) · Portuguese (fluent) · Spanish (conversational)
